

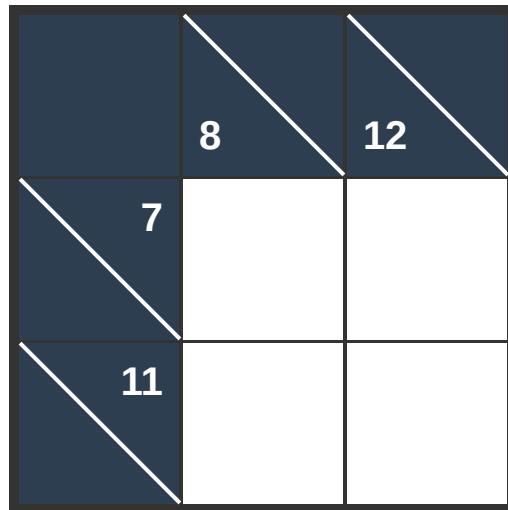

## Diagram 1: Anatomy of a Kakuro Grid

**White Cell:** Fill with digits 1-9

**Black Cell:** Contains clues or acts as a separator

### How to Read Clues:

- The number in the **upper-right triangle** is the ACROSS clue (horizontal sum to the right)

- The number in the **lower-left triangle** is the DOWN clue (vertical sum going down)
- Not all black cells have both clues—some have only one
